

ARMADEX®

Armadex bolt down rubber for your toughest scalping applications

Benefits

- Made with the highest quality rubber media in the industry.
- Great for chute liners or other high impact zones.
- Can be bolted to your existing deck frame or installed with our PipeTop II® system.
- Customizations for bolt hole locations, shapes, and angles are available in different configurations to fit your application needs.
- High Strength Low Alloy (HSLA) steel backing allows for 38% more yield strength.
- Armaflex design option is effective in removing clay and sticky material
